'Shike'

We are delighted to have permission to share some more personal details about the man awarded the title 'Shike', an honorary and dynastic title, by the school Kodan ENSHINRYU Honmon ENSHINRYU-BUJUTSU. (Venice, April 2005.) This is a title seldom awarded to anyone from the western world, highlighting the unique qualities of Giacomo Spartaco Bertoletti – the Federation President for 40 years and Iemoto Kaigi.

Shike was born 16th April 1941, to the beautiful, but quite strict Arnalda Bertolucci, and father, the very handsome Alberico Bertoletti, from whom he has inherited his warm, fun side - both pictured below. The Bertoletti name, of which he is very proud, dates back as far as 1089.

The very cute picture of the young boy is the young Spartaco's first communion wearing his cadet uniform.

Arnalda was very keen for Spartaco to take up dancing - but Spartaco was not so keen! And so in order to appease her desire for him to take up some kind of hobby or sport - he entered into Graeco-Roman wrestling, aged 12 and fencing (foil).

He admits himself he always was highly competitive in his nature. This style of wrestling forbids holds below the waist and so relies heavily on throws & uses arm drags, bear hugs and headlocks. This served as a great grounding to prepare Spartaco for his later career in Martial Arts. One of his old wrestling masters became 'CT' for the National Competitions at the time.

He started practicing karate Shokukai, that was to develop into Sankudo and Sankukai with Master Jean Michael Baroche, one of the first black belt students of Master Yoshinao Nanbu in 1961. He also practiced judo and kendo, but in particular ju jitsu - of the Japanese origin Yoshin Ryu. He also practiced Shotokan in the school of Master Hiroshi Shirai (yudanshakai) and Masaru Miura, and Shito with S Shihan Ogasahara Eiji (Kenshukai).

In 1976, with the foundation of the WJFF (World Ju Jitsu Federation) along with Soke Robert Clark, he started his long trips to Japan and he joined the school Hontai of Saburo Masanori Minaki, 17th Patriarch, thanks to the presentation of S Shihan Eiji Ogasahara, where he remained until Soke Minaki's death (1986).

He received the 7th dan Kyoshi in 1984 by the same Master Sabuno Minaki, with whom also Soke Fumon Tanaka (Nippon Kodan Kobudo) trained in secrecy.

In 1997, he earned his 8th degree by Soke/Sosai Kunio Tatsuno of the Sheshinkai of Osaka.

In 2004, President Paul Hoglund (President of JJIF, Ju-Jitsu Interna-

tional Federation) issued him with the 9th dan.

In April 2005 (Venice) he was greatly humbled to receive the amazing honour of the title '5th Shike' which has come to be how he is known to all.

Following the death of his partner and great companion of 40 years, he took on the mantle of striving to maintain the legacy that he and Soke Clark had built. This is surely a 'poisoned chalice'. A man of his reputation, at a point in his life when he could sit back and enjoy the fruits of his success – starting afresh to reunite the Federation groups, give them a new figurehead and strive to develop the World organisations in a manner that he and Soke Clark had always dreamed of. All international contracts and planning for worldwide events and organisational development transferred to the Milan headquarters, ably administered in a highly professional manner by the very efficient Natascia Argia Bertoletti, a long-standing member of the Federation and Vice-President for WJFF-WJJKO Italy.

This lifetime of our Shike's achievements culminated in the successful ruby celebration of the 40th Anniversary, in Rome. An amazing extravaganza of an event – with participation from countries all over the world, training in harmony at the Olympic stadium – celebrating in comradeship at a fun themed Roman night and rewarding the work of the key players within the organisation at a dignified Gala dinner and Awards ceremony. It was at this dinner that Shike received the honorary degree of 10th Dan from Esteban Keleman and Soke Auvoo Niiniketo, Finland. Shike reluctantly and humbly received this honour, on behalf of the work undertaken by, both his comrade (posthumously), and himself over the forty long years.

This momentous event was made possible by the professional teamwork carried out by Shike Bertoletti and Susheyki Stefano Draghi & team of Senior instructors, along with the 'Bertoletti team' - Shike's daughters Tanya, Katia and Natascia

(also International General Secretary) – a formidable group of women – showing their depth of support and commitment to their father's aims. All have inherited his tremendous work ethos and a passion for people that reinforces any work they carry out.

The 4th picture I've included is of Shike Bertoletti receiving his second degree in 1990 H.C. Francesco Petrarca University California States – USA. This serves to depict that Shike has a combination of skills that blend beautifully for the roles he has undertaken over the years. Highly educated and a talented writer he is known often primarily throughout the sporting world for his journalistic talents – this does not in any way diminish his prowess as a martial artist in his own right! If he were to publish his own accolades and talents – surely he would be criticised for being egotistical! This is where he is in a very difficult position – through jealousy and spite, the unfortunate side of the human nature means he, and others in such an elevated and privileged position, can often become the target for those who would wish to have his place. However like the story of the 'Sword of Damocles', I would assert that no-one would be able to sustain this role so effectively as Shike has managed to, and for such a long period of time. He makes it look easy – to look so wonderful and be so fit and strong in spite of everything! - but do not be deceived that there have been many sacrifices along the way.

Shike 'Spartaco' is a charismatic and very able negotiator, an excellent commu-

nicator in 4 languages and perhaps a little more. This has no doubt been largely why relationships have been so strong in countries all over the world. With our Soke Clark also being such a charismatic man and a front man or 'show man' - Shike was happy to take a more secondary role, building foundations and working avidly in the

background – taking none of the 'fame'. However it goes without saying the massive impact that Shike's martial art lineage and his tenacity for building strong and committed relationships has had on the progression of our Federation to what it is today. Credit must also be given for a man who wished to remain outside of 'the limelight' – stepping in to fulfil a 'figurehead role' which ultimately puts him directly in the firing line. Lucky he has helped to build one of the finest 'armies' in the world who are there to assist him in all of his work. Finally I have chosen to show some of the wonderful images of Shike in the present, at work with some of our members, in his role with the Robert Clark Foundation. Indeed Shike Bertoletti maintains his high level of dedication and concern for our students & continues to work tirelessly and it appears effortlessly all over the world!

Never too busy to stop and make a young child feel special.

Presenting an honorary Blackbelt to James Bleakney.

And then, of course, the final photograph which needs no clarification - pictured with one of our Co-Chairmen, and his personal student, Stefano Draghi - Shike is being embraced by his lifelong friend and partner, the inimitable Soke Robert Clark. A story of which you will all be able to read in Shike's book '40 years' – soon to be released in English translation. If you haven't already – please make the time to book yourself on one of the exciting opportunities to train with our Shike – please see attached promo

for upcoming course in Gaeta. Shike has a unique style – a wealth of knowledge to impart and those of our students who have

had the benefit of learning from him have the highest of recommendations for his teachings.

Bali the island of gods

The adventure is continuing Towards our 41st year Bali Denpasar and return !

It seems easy to say, but the organization of travel like this condensed into a few days, is not an easy challenge!

I promised Shihan Steve Pritlove and Sofjan Hanbali to come back to Indonesia to sign the development of the Indonesian Archipelago.

"Every promise is a debt " and so step by step after a flight of almost 15 hours to Bali, immediately another one to Denpasar.

It is wonderful to be welcomed with a great party in the large government palace from the Holland era.

Yes there were Steve Pritlove and his partners, the Sofjan

Australians, Kasaki, Indians etc... the surprise was the delegation from Singapore headed by Stephen Chee 7° dan Wjjf/Wjjko 1976 recognized by the Judo Federation of Singapore in 2017.
About Shihan Chee, we have talked many times because of his flexibility in the practice of martial arts: ju jitsu, judo, karate and kobudo.

Hanbali's family in primis.
A lot of participants, love and more than this - harmony.
The meeting with Shihan Touneo Sengoku (judo/kata) and overall the unexpected visit of Stephen Chee from Singapore is another step of success signed by Wjjf/Wjjko 1976, and wanted by Soke Robert Clark /Gsb
Here in Bali we are already working for a "Convention" for 2018/2019 where the following countries will participate: Singapore, Malaysia and Indonesia with the support of the Australia group of So Shihan Peter Pace.
And, by contrast, here in Europe, we are collecting a lot of papers in order to secure our historical "logo", the others are teaching us the "way" of harmony. Indonesia Raja, "Great Indonesia".

Actually he should not have had to come to Bali, but seen the presence of Gsb he wanted to greet his friend of work of more than half a century
The meeting with Shihan Steve Pritlove and Stephen Chee opened a new way for the life of our Federation in the land of Australasia
Our two Shihan Steve Pritlove and Stephen Chee have already decided for a meeting in order to study some new proposals of more significant cooperation in the archipelago.
In November (4-5) Shihan Steve Pritlove will go to Australia for the Congress Wjjf/Wjjko 1976 proposed by so shihan Peter Pace
For the usual "Giona" this is the message : "we go on and sorry... full sail ahead".

masters Alfredo Vismara and Piero Comino and I was happy to talk about the judo/ju jitsu which was the school Judo Kodokan – the house where the ancient art is practiced.

We must return to the past to properly study kata. As was suggested by the president IJF, Doct. Marius L. Vizer, who wants to take kata/judo to all the countries which are part of the federations (200) and not only for the 20/30 countries which are actually participating in the competitions.

Judo is not only made of Shihan Touneou Sengoku's medals, and because he doesn't want to close his dojo, and he wants to lead the spirit of Kano, he has decided to sell his amour (yoroi) and the katana of his family.

We need to help Shihan Touneou Sengoku for continuing the "way"!

Samurai is proposing a subscription in order to support the dojo in the jungle. And it is not a euphemism.

Kasei Chikusen

The nature of flowers is the nature of bamboo

La Spezia 22 July 2017

A challenging Keiko that one proposed by Shihan Michele Julitta in the Dojo at the Anna Frank School of the Master Cozzani.

Over 30 different levels of attendance, including shihan Francesco Palandri, Italo Francucci and Gianfranco Camerini, to name a few illustrious names, have characterized the teaching of the techniques Kodan Enshin Ryu - Gsb Ha.

Batto shite, the swords for the suemogiri, etc., for advanced and beginners.

In martial arts, bu-do, many people feel that they are

important for the degree they got. "Try putting your finger in a glass of water and count how long the hole closes. This is called humility!. This is bu-do".

Suemogiri - "traditional cut" for the ancient Japanese schools": The suemogiri of Enshin Ryu was not used to test a sword, and, unlike tameshigiri,

it was carried out on objects (such as bamboo and straw) that were not secured. Suemogiri was done as a practice for kaishaku: this was necessary because any mistake while undertaking kaishaku was impermissible. Suemogiri was also conducted to demonstrate a warrior's iaijutsu or kenjutsu skills to his lord, an in special ceremonies at the castle or shrine.

A small informal challenge, ji dai, among Shihan Gianfranco Camerini who passed the test of the two bamboos, united, against the 3 of Gsb Merit ... of the shinken .. sharp sword, almost certainly!

Order of Security

New International Award for security professionals and law enforcement specialists

In the history of mankind, the need for security has never been as urgent as it is now, from the beginning of the 21st century. By the multiplication of security risks and dangers, people's sense of security is significantly reduced. Security is a huge challenge for everyone and more important than ever before in the life of individuals and societies, political activities of countries and different organizations at international and national level. More and more specialists are employed by the official law enforcement agencies and in the private security sphere around the world. And their number is expected to rise further in the near future. So, the security profession rightly demands the recognition of exceptional performance and successful professional career in an official form at international level.

In 2015, upon the initiative of IBSSA, with the support of IAPA and other international security organizations, a new system of honours was established and launched in order to recognise the outstanding performance of professionals and corporates working in the field of security. In terms of spirit, this system was registered as a non-profit, international association, in such an organizational structure like the knightly orders.

Name of the professional knight order: **International Order of Knights of Security**

Short name of the order: Order of Security

Abbreviation: O.S.

Composition of the governing body:

- renowned international experts and leaders of professional organizations have been invited to be members of the jury, chaired by the Founding President. Proposals for granting the award can be made by international or national security organizations and businesses.

The award consists of a 3-level grading system:

Level I.

a./Shield of Security

b./Officer Shield of Security

c./Commander Shield of Security

Level I. awards can be given to companies or organisations working in the security profession, in addition to private individuals.

Level II.

d./ Star of Security – Level Bronze

e./ Star of Security – Level Silver

f./ Star of Security – Level Gold

These grades can only be given to private individuals.

Honours can be applied by submission forms. Recommendations for decoration received on the Internet will be awarded by the governing body following the evaluation of the international jury, and after receiving the registration fee – the diploma, the ID-card and the pin will be sent by post to the recipient of the award.

In the first period the handover ceremony is organised by the promoter, then – gradually – this role is taken over by the national organizations, that are already formed by the awardees.

Those people who receive any of these six honours will become members of the professional knightly order, i.e., the International Order of Knights of Security.

Level III.

g./ Silver Star of Security with Diamonds

h./ Gold Star of Security with Diamond

i./ Grand Cross Knight of Security

High achievements of Level III. can also be proposed and requested in the manner described above, which are already knightly titles. These decorations are received personally during the “Order of Security” Award Ceremony and Gala Dinner (Ball) solemn events, to be held once a year. Patron of the award ceremony is the Sovereign Order of Cyprus, the elite knightly order of the Knights of Sword and Silence.

From the registration fees – after deduction of all related costs – the remaining amount is spent on professional training, particularly in the fields of security, first aid and disaster relief, in accordance with the principles laid down in the articles of association.

The decorated professionals, namely members of the International Order of Knights of Security operate independently in the various countries on the basis of the suggestions and instructions of the governing body, only for appointing the national president requires the approval of the HQ. *(In the first period, their appointment is also the responsibility of the centre, for quick implementation and efficient operation.)* For the members of the O.S. we do not intend to introduce knightly capes. Wearing the decorations, i.e., the rendering symbols on elegant suits or for ladies on occasional dresses and costumes, meets the wear and appearance appropriate to the rank of the medal of honour.

The organizers will soon be presenting the photos of the medals, the diploma sample and the forms of application in several languages, *(which can be sent online as well)*, these forms will include the symbolic registration fees of the various grades of awards.
