Workshop in Konya

28-31 May 2015

Konya, was known in classical antiquity and during the medieval period as Ikónion in Greek (with regular Medieval Greek apheresis Kónio(n)) and as Iconium in Latin. This name is commonly explained as a derivation from icon, as an ancient Greek legend ascribed its name to the "eikon" (image), or the "gorgon's (Medusa's) head", with which Perseus vanquished the native population before founding the city.

In some historic English texts, the city's name appears as Konia or Koniah. The city is still influenced by Persian culture, such as Cult of Dervishes and Islamic mysticism rooted in eastern Iran.

In this ancient city, from 28 to 31 May 2015 took place a technical and tutors' workshop under the guidance of Shihan Yavor Dyankov – Representative for the Balkans, Baltic, and Eurasia region at WJJF/WJJKO, following the invita-

tion by the Turkish Ju-Jitsu and Brazilian Ju-Jitsu Federation president Orhan Ozakti. This Federation was established in 2012 and it has about 800 instructors who cover the entire area of Turkey. During its short existence so-far, the Turkish Ju-Jitsu Federation shows great progress, and it already has successes on the international Contests field. The workshop schedule envisaged methodical education for the sports techniques in Ju-Jitsu under the Duo, Fighting and Ne-Wadza systems; as well as lectures about the physical and psychological preparation of the contestants of the different ages groups. The theme for the methodical and pedagogical preparation of the children at the age of 7-14, and 15-18 was discussed too. The workshop was held in very high level of proficiency, with numerous competent participants from the different parts of Turkey.

Presents and souvenirs, as well as letters of gratitude were exchanged at the end of the workshop. They were presented to Shihan Dyankov by the president Orhan Ozakti. The same gesture was made by Shihan Dyankov to the president Orhan Ozakti, as well as to the leaders of the organization of the different Turkish cities, who were presented with souvenirs and memorial presents. Many pictures and videos were made, and the event was reflected by the local TV-stations and newspapers. Besides the intensive workshop schedule, the kind Turkish hosts organized a cultural program with a tour for sightseeing of this ancient Anatolian city Konya in Turkey, where Shihan Yavor Dyankov was amazed. The Museum of the ancient Persian poet Rumi and the ancient Dervishes dances with their philosophy made a strong impression. At the end of the year, another similar meeting will be held, which has to strengthen the connection between the Turkish Ju-Jitsu and Brazilian Ju-Jitsu Federation and WJJF/WJJKO.

The first Kodan

Budapest from 4 to 8 August Hungary was the first event of the "old Wjjf-Uk" in 1979. And now it is the "first" of one series (10 groups in Europe) for the Gsb-Koden Enshin Ryu, registered in the UIBM n. 1577938 5.02.2014 The opportunity was given thanks to the president of the Wjjf/Wjjko – already gold contract –Tamas ---- and by Soshi soke Jonos Karsai (Ni To Ryu),

who obtained that title (deshi) of the Japan International Budo Nihon Budo Kyogikai Japan, Soke Kuniba Kai.

Two different groups: "yudansha" (15) and "mudansha" (more than 40). They have distinguished this seminar which presented the ko-ryu old school of gekken, Japanese fencing.

One peculiarity has to be said " is not important the law of the great number" to be considered important in our organization.

What is important is the law of the "quality". I'd like to repeat, this for everyone, not the "quantity". To us, at the Head - quarter, headed in Milan/Italy – as wanted by Soke Robert Clark, - Ryo-so, founder of one style- in the year of the foundation 1976, "numbers are not taing any tangible benefits" what is important is the spirit in the practice of the gekken, as for all the budo. The special training, shinza, made by GSB, considered this principle:

- hands and heart = one unique thing
- elbow and knee = one unique thing
- mind and shoulders= one unique thing
- heart and mind=one unique thing

Budapest the first Koden

- mind and breath = one unique thing
- power and Energy = one unique thing
One “go-kyo”, 5 elements, which completes the traditional suemonogiri, cut of the bamboo (take) against a pedestal (dai tikko).
“the bamboo rejects the snow, the flexibility and the power: soft is the live; the rigidity is the death” (Ju and Go).
We are preparing, for the next seminar: for the Koden we can compare to the eagle (whasi), which flies high in the sky!!

Baku: European Games

20 sports and not the ju jitsu JJIF why?

16 Olympic and 4 not Olympic - if there will be in 2019, should we have the chance at least to try with the ju jitsu?

Who can know?

The experience in the “great” Caucasus” where there is Azerbaijan, cannot be estimated only in terms of the results of the competitions, even if there are a lot of these.

The Republic of Azera is the greatest state of the Caucasian region. The sport and touristic investment of this country, was born thanks to different factors- One of these is the participation of the Azeri athletes at the Olympic since 1996, the date of

its independence from the Urss and the great results obtained in London 2012.

Azerbaijan had attained 10 medals and finished the Olympics in 15° place in the European rank. During the junior, Olympic games in China, (?) the host athletes won 12 medals and the Nation got 10° place.

Azerbaijan has realized in a short time 40 modern Olympic structures for practising many sports and promoting, already soon, important sport events: : Formula 1 (2016), the Islamic Solidarity Games” (2017); and to follow the Euro football (Uefa) in 2017.

The same thoughts have been repeated also during the closing ceremony by the first lady Mehriban Aliyeva, president of the organizing committee, reading a long written letter wrote by the actual bureaucrat as a politic written- Also Patrick Hickey president of the Coe, was not a joke.

Here, in the city of the wind- that never stops – with a mix of the old Urss and Turkey, of Arabian Emirates & C- for 17 days, we have spoken of medals and technical results.

Azerbaijan is the “land of the fire” following the ritual heritage of Zoroatrismo and has celebrated his future here in Baku at these games

Opening ceremony

As the president Patrick Hickey Coe, (European Olympic committee) has declared this of Baku: “is a sign of an historical moment for the sport in Europe!”. One ceremony I already imagined great but that in reality was better, seen the presence of “Lady Gaga” with a pacifistic song – in a dictatorial land – “Imagine” by John Lennon.

There is time to think to the “wrong note” of Lady Gaga while singing in front of the presidential family Aliyev, this Lady Gaga will cost very much to

Vladimir Putin president of Russia, Thomas Bach president of the Cio. It should have been a touch of class instead---

Who knows if the two Putin/Bach have spoken about "SportAccord" and Marius L. Vizer, the judoka which is the utmost trouble!!!

The subject, in the opening, the origins: one parody linked to the national colours and to the poem Nizami. Following the principles of Zarathustra are traced the prehistorical inscriptions of Gobostan, on those are rotating the history, the fantasy and the universe- It is the parade of the 50 delegations with the qualified athletes who are moving 65 thousand and more spectators, began from Greece for the historical honour.

The more hissed is the Armenia, with that the Azerbaijan is in war because of the area of the Nagorno Karabakh; it is valid the saying "we can forgive but not forget" the more plaudit is Turkey not for the problems it has created to Europe of the 28.

The torch delivered by the Azeri Olympic medal Himan Zakiyeu, the European Olympic flag has been accompanied by 8 medals - among them the Italian Niccolò Campriani (shooting); taking the flag the Italian Giulia Quintavalle (judo) gold medal in Beeijing 2008.

for Ireland, David Toney for an amazing opportunity to train at advanced level. Soke Clark worked hard in spite of many political difficulties over the years to maintain a strong Anglo-Irish link within our Federation and Shihan Flaherty and Shihan Toney are no strangers to working together for maximum effect. Shihan Toney cites the support from WJJ Training Services as one of the major strengths which has helped develop and progress the Coaching structure within Ireland. President Bertoletti is keen to nurture this alliance as it affords a multitude of inter-country opportunities for the future, and this strong foundation can be the catalyst for producing many more skilled coaches.

There is a lot of fresh potential within Cheshire Budo Federation, Shihan Flaherty's 'home dojo', including Master Andy Travis, 'home-grown' talent in the form of Sensei Helen's son. Shihan Flaherty will also be supported by his son, Sensei Steven Flaherty, who is their representative in the UAE. We look forward in anticipation to Cheshire Budo's future within our Federation, as this 'new-blood' is nurtured by two of the very best instructors and advisors that Samurai World (Liverpool original dojo) was fortunate enough to have.

This master class event is exclusive to Black Belts and Senior Brown Belts only & it is endorsed by the Robert Clark Foundation - all proceeds will go to charity.

Put the date in your calendar now!
