Buenos días: doctor!

La Romana - Santo Domingo after 5 years, the Ijf Academy and its programs are recognized by the National Commission for Further and Higher Education (Ncfhe). Interview with Envic Galea promoter of the Ijf Foundation.

The delegation of the "Ijf Academy" directed

by Dr. Envic Galea (Malta) and composed by: Dr. Tibor Kozsla (Hungary); Piero Comino expert for the Academy kata; Daniel Lascau Ijf sports director, Mark Huizinga, assistant, ended up with a meeting with the Minister for Sport, Danilo Diaz.

The ministry is located in the Olympic Center, in the capital, a structure worthy of this country in great evolution and where it is planned to build a hotel reserved for young people who approach the various sports, judo primarily, all levels: from basic, training and to master coaching.

The Dominican Republic, is one of the great Caribbean islands, discovered

with a balancer in order, and had been manufactured in Rome ... or so, and so the city took its name from this tool! ".
There is no need to urge Envic Galea to speak ... he is an orator who would have envied Marco Tullio Cicero (106 BC -43 BC).
"The Academy is 5 years old and we are planning our work for the next 5 years, starting from 2019.
Ju jitsu Commission? For reasons of good neighbourliness with the Jjif (ju jitsu international federation), the IJF refrained from including a commission within it - although it was desired by many.
The same kodokan, which is the ju jitsu of Jigoro Kano, who wanted to call 'the house where he practices the ancient way', to differentiate him from the jikishin ryu (Osaka) that inside had a school called judo.

by that Cristobal Colombo (1451-1506), Christopher Columbus, in his second journey towards what he hypothesized were the "Indies". To him and to the real "conquistadors" we owe the destruction of the Indians, the taino, in particular, that here as in Cuba or in the other islands of the Caribe they lived more or less quiet!

Having to work the land, the sugar cane, the conquistadores began to bring the blacks from Africa, thus giving birth to the "society of the slavers".

Today, perhaps, is it different with "the trafficking of migrants"? In the north Haiti, unhappy, depressed even in the atmospheric conditions and in the south of Santo Domingo that we know. A trip of a couple of hours by car from the Romana to the capital, among motorcyclists on the highway that also go in the wrong direction, with on board three or four and sometimes 5 people (unthinkable for us, but it is like this!); pedestrians that cross everywhere: a highway, a carretta. This highway is very folklore and very dangerous.

At the Olympic Center, Envic Galea, creator / promoter of the Academy judo Ijf Foundation welcomes us with his great mental openness: "why it is called the Romana" Angelo Balconi, now resident and soon "citizen of the Republic": "in the period of great trades, 1500/1600, there was only one weighing,

In his concept of 'judo education,' Kano, he took culture into account through the ancient ko ryu, like the styles of katori, enshin etc ... Perhaps when the CIO decides the future of the Jjif federation, we will be able to review our politics.

There is nothing to say "congratulations Dr. Envic Galea!". At this point we aim at the doctorate in judo initiative that would have liked the professor Jigoro Kano, and that suggests a re-found "intelligentia" in the modern judo

In the name of Spartaco

Sofia / Basko (Bulgaria) 22-29 July 2018

In the world the message "I am Spartacus" has resounded over the centuries as a call to friendship, brotherhood, and freedom.

Spartacus, (111 - 72 A. Christ) trace of origin, today Bulgaria, has been elected hero of many generations, thanks to the book and the film of 1960 directed by Stanley Kubrick, taken from the homonymous novel by Howard Fast, with Dirk Douglas .

It was in the program at the end of the summer camp, organized by Shihan

Georgi Zarkov, to pay homage to the monument and statue of Spartacus in the city of Sandanski, one of the few monuments in memory of the gladiator hero. But we cannot always do everything! The intent is only postponed. In Basko, we say that we are engaged in a multi - technical summer camp: jujitsu / aikido / hashita / Russian / Brasilian / yoga system with a list of leading teachers, among whom I mention, in addition to Georgi Zarkov, Ranko Ceric (Croatia), Gianfranco Camerini (Italy) and Gsb for Kodan Enshi Ryu

"Gsb - Ha"
Also Shihan Kamen Radev was with us, signing the renewal of the affiliation to the "Wjjf / Wjko 1976", which makes him the only representative, in the face of those who sowed and plant weeds or for those who made other choices for the "vile money"

For us "Wjjf / Wjjko 1976" the harmony that was born 16/17 years ago born with the first meeting in Sofia with Giorgi Zarkov and Kamen Radev, Angelo Balconi and myself, are back.

Like the centuries-old pine tree, more than 1,300 years old on the Pirin mountains - the longest-lived in the Balkans - I believe that our structure in Bulgaria, as elsewhere, is as strong and long-lived.

The Japanese call these ancient trees or gisa san: o = big; gisa = to search; san = man: "to seek the great man". A concept that is linked to the Japanese

writings from top to bottom = tree.

On top leaves and flowers, in the middle the trunk; and down the roots.

A sign of veneration and respect. What we want more, and remember from the soke Robert Clark (1946-2012), who would have repeated if he were still with us: "... the door is open for those who enter and for those who leave"

The choices are not discussed, the bad language, yes!
